Chief Patron's Message

"Mental health issues can strike anyone, irrespective of race, social status or educational background."

Mental health issues can strike anyone, irrespective of race, social status or educational background. Unfortunately, many people with mental health issues still face challenges, prejudices and barriers. Without our support and assistance, it will be difficult for them to work, live and integrate into our society. Club HEAL's mission of assisting and empowering people with mental health issues in their recovery journeys is therefore a worthy one.

I commend the volunteers and staff of Club HEAL who work tirelessly to help clients and their families break down the stigma they face. Their work is not easy but they do it with patience, perseverance and grace.

I am heartened to see Club HEAL grow from one centre to the current three within a short span of five years. With the expansion, Club HEAL is able to multiply their outreach efforts and community support. Given appropriate care and support from their loved ones, many people with mental illness will be able to manage their condition well enough to return to a productive role in society.

The journey ahead for people with mental health conditions is a long one, but it can be made easier with your help. I am confident Club HEAL will rise to the challenge and continue your good work.

Mdm Halimah Yacob President of the Republic of Singapore

President's Message

Allah the Most High has said,

"My love is due to those who love one another for My sake, who sit together for My sake, who visit one another for My sake, who bestow things on one another for My sake."

Thadith from Malik

A group of youths under Project Weave organised a camp for the peers of Club HEAL early this financial year. It is heartening that youth have come forward not only to seek to understand our clients, but also to actively volunteer their time and energy towards helping the latter in their recovery journeys. It means that outreach about mental health issues is working.

In June, we held a Forum cum *Iftar* (breaking of fast) at An-Nur mosque with the theme of "HEALing relationships". We collaborated with An-Nur mosque, the Marsiling grassroots leaders, FiTree and the Singapore Halal Culinary Federation to stage a 'green' *Iftar* that was aimed at preserving relationships with not just our Creator and our fellow humans, but also with Mother Nature.

Social activist and media entrepreneur Ms Eunice Olsen and her team approached Club HEAL to do a series of videos on Club HEAL's four main themes of Hope, Empowerment, Acceptance and Love – important ingredients in our recipe for mental wellness and recovery – under their internet TV platform, *Womentalk Soul*. Her team also helped produce Club HEAL's first ever corporate video aimed at explaining to audiences the work of Club HEAL as well as to eradicate the stigma against mental illness. We were fortunate to have the active participation of our chief patron, President Halimah Yacob, who candidly aired her views.

The year 2017 also saw the introduction of formal art lessons at the three rehab centres by our art instructor, Nhawfal Juma'at. Art serves as a wonderful platform for recovery. Club HEAL even received a special invitation from the Istana to paint the scenery of the grounds of the Istana. More spectacular news: the President selected the paintings of some of our more talented clients for gift exchanges with foreign dignitaries, as well as for the production of memorabilia for the President's Challenge 2018.

While our vision of eradicating stigma has not been completely realised, we are coming closer to it. A large part of this is due to the willingness of the peers in Club HEAL - be they staff, volunteers or clients – to come forward and share their recovery stories at various platforms, including national media.

We celebrated our fifth year at a very successful Gala Charity Dinner graced by President Halimah Yacob at Keat Hong CC with the support of our other patron, MP Mr Zaqy Mohamed. It was a memorable evening that also saw the launch of both our corporate video and Club HEAL's fourth book, *A Place in the Sun* by Yohanna Abdullah. The book celebrates inclusivity by showcasing how people with mental health issues and their caregivers triumph over the challenges that they face with the support of family, friends and the community at large.

Many from the religious community such as MUIS, PERGAS and mosque clusters have approached us for talks and workshops on mental health topics – so relevant in today's context of rising numbers of people with mental health challenges.

In fact, MUIS has taken a huge step beyond financial and moral support; it has engaged us to provide comprehensive mental health services to our *madrasahs*, allowing us to fill yet another gap in existing services.

Last but not least, through the initiative of our mental health nurse, Fazeeda Mohamed, who spearheads services to the elderly population, we have been more active in recruiting and training 'Silver Volunteers" to enhance our home-based services to this group of clients. This service not only helps our beneficiaries, but also enriches the lives of the volunteers.

In the longer term, I see the expansion of services to include those with addiction issues. I also see the opening of a few more Club HEAL centres, which would greatly assist us in our outreach to people all over the island city. In Club HEAL, we aim to fill as many gaps in services as we possibly can.
